
NAS NORTH ISLAND - NAVY REGION SOUTHWEST NAVY ENVIRONMENTAL LEADERSHIP PROGRAM

PARTNERSHIPS

NAVAL STATION MAYPORT NELP

ACTIVITIES INVOLVED

Naval Air Station (NAS) North Island NELP

Naval Station (NAVSTA) Mayport NELP

STATUS

Active

MISSION

Provide an integrated environmental program that will (1) be visionary and innovative in dealing with environmental issues; (2) provide leadership that is responsive to the Navy and the public; (3) provide a catalyst to promote environmental awareness and knowledge; and (4) serve as a focal point for innovative environmental initiatives for the Navy

PARTNERSHIP DESCRIPTION

When NELP was established, NAVSTA Mayport and NAS North Island were selected as the two NELP activities. Working together to share information, NELP activities at both locations have grown the programs substantially. Together, the NELP team has evaluated several initiatives and monitors both ongoing and completed initiatives to ensure success and continued improvement. The NELP team finds, develops, and shares concepts and management practices, and serves as a test bed for new and innovative technologies that can be applied to environmental issues.

The two NELP activities' teams meet periodically via videoconference to share ideas and learn from each other. The teams also are working together to develop joint outreach materials, such as an annual report, bulletins, posters, fact sheets, and web pages. The success of each NELP activity encourages the success of the entire program.

BENEFITS

- Streamlines management of NELP initiatives
- Facilitates sharing of successes and lessons learned between the two NELP activities
- Promotes awareness and communication
- Improves efficiency of NELP by building upon successes at each NELP activity
